

IEEE 6G SUMMIT DRESDEN 2026

Startup Call

May 19 – 20, 2026

Dear Startups,

The 11th IEEE 6G Summit Dresden brings together global leaders in telecommunications, research, and innovation to drive the next generation of wireless technology. Organized by IEEE, 5G Lab Germany, and TU Dresden, this event offers startups a unique platform to showcase their solutions, connect with industry decision-makers, and explore new business opportunities.

Pitch Your Innovation to 500+ Industry Leaders

We invite startups in the 5G/6G ecosystem – whether focused on network infrastructure, AI-driven connectivity, edge computing, or disruptive applications – to apply for our Startup Pitch Competition. Selected companies will be able to present a **three-minute keynote pitch on May 20, 2026**, to an audience of executives from major equipment suppliers, network operators, and semiconductor manufacturers.

All participating startups – including those not selected for the plenary pitch – will benefit from:

- A dedicated exhibition space to showcase their technology.
- Two full-access conference passes at the special startup rate of 950€ (excl. VAT).

How to Apply

Submit your pitch deck by March 25th, 2026, to robert.walstab@tu-dresden.de.

The IEEE 6G Summit Dresden is where innovation meets implementation. Whether you're scaling a solution, seeking partnerships, or exploring investment opportunities, this event provides direct access to the key players shaping the future of wireless technology.

Apply now and position your startup at the forefront of defining tomorrow's connectivity!
